GATES AND ENTRANCES

The Box Hill Pedestrian Gate

AWP-G02 | PRODUCT INFORMATION | ISSUE 01

Representative product or construction image. Final details are confirmed with the quotation.

PRODUCT OVERVIEW

An oak pedestrian gate made to the confirmed opening for estate paths, gardens, access points and managed landscapes.

TYPICAL PRODUCT INFORMATION

DIMENSIONS	Made to the confirmed opening and intended use
TIMBER	Oak; species and stated origin confirmed for the order
CONSTRUCTION	Mortise-and-tenon joints secured with timber dowels
CONFIGURATION	Handing, clearances and closing arrangement agreed before manufacture
SUPPLY	Supply only, delivery or managed installation

MAINTENANCE AND REPAIR

Routine inspection should cover hinges, latch, post stability and ground clearance. Hardware and suitable components can be replaced individually where practical.

AVAILABLE OPTIONS

- Width, height and handing
- Oak posts and adjoining boundary connections
- Latch and closing arrangement
- Finish and lettering where appropriate
- Installation or supply-only order

INFORMATION THAT HELPS US QUOTE

- Clear opening and approximate gate height
- Photographs of both sides of the opening
- Likely users and frequency of use
- Existing posts, walls, fencing and ground surface
- Any access, closing or management requirements

MATERIALS AND MANUFACTURE

British-grown timber is preferred where suitable, available and commercially practical. The quotation confirms the proposed species, stated origin, fixings, finish and supply or installation scope.

IMPORTANT

This sheet is preliminary product information, not a final technical specification. Dimensions, materials, price and scope are confirmed in Albion's written quotation.
