GATES AND ENTRANCES

The Dorking Gate

AWP-G03 | PRODUCT INFORMATION | ISSUE 01

Representative product or construction image. Final details are confirmed with the quotation.

PRODUCT OVERVIEW

A matched pair of oak estate gates with sweeping curved bracing, developed around the entrance, ground levels and intended use.

TYPICAL PRODUCT INFORMATION

ARRANGEMENT	Usually a matched pair; other arrangements considered to quotation
DIMENSIONS	Set from the clear opening, sweep, levels and agreed clearances
TIMBER	Oak; species and stated origin confirmed before order
CONSTRUCTION	Mortise-and-tenon joints secured with timber dowels
SUPPLY	Supply only, delivery or managed installation

MAINTENANCE AND REPAIR

Check hinges, meeting clearance, centre stop, latches, posts and drainage periodically. Hardware and suitable timber components can be adjusted, repaired or replaced individually where practical.

AVAILABLE OPTIONS

- Overall height, leaf proportions and infill arrangement
- Oak posts or interfaces with suitable existing piers
- Hinges, latch, centre stop and hold-open details
- Finish and weathering preference
- Interfaces for separately specified automation

INFORMATION THAT HELPS US QUOTE

- Clear opening and proposed gate height
- Photographs from both approaches and across the full swing
- Ground levels, drainage and fall through the opening
- Vehicle types, frequency and preferred operation
- Existing posts, piers, services and installation access

MATERIALS AND MANUFACTURE

British-grown timber is preferred where suitable, available and commercially practical. The quotation confirms the proposed species, stated origin, fixings, finish and supply or installation scope.

IMPORTANT

This sheet is preliminary product information, not a final technical specification. Dimensions, materials, price and scope are confirmed in Albion's written quotation.
